7.5 Direct Inward Dialing (DID) Service

(D)

This product is grandfathered and no longer available to new customers.

Direct Inward Dialing ("DID") permits calls incoming to a PBX system or other Customer Premises Equipment to be routed to a specific station without the assistance of an attendant. DID calls are routed directly to the station associated with the called number. DID service as offered by the Company provides the necessary trunks, telephone numbers, and out-pulsing of digits to enable DID service at a Customer's location. DID service requires special PBX software and hardware not provided by the Company. Such hardware and software is the responsibility of the Customer.

The following charges apply to Customers subscribing to DID service provided by the Company. These charges are in addition to recurring and non-recurring charges for PBX Trunks as shown in Section 7.4 of this tariff. The Customer will be charged for the number of DID Number Blocks (20 numbers per block) regardless of the number of DID numbers utilized out of the available 20 numbers.
